

## EMPLOYERS FEEDBACK

Academic Year 2020-21

The report highlights strengths identified by employer feedback concerning 2020-2021 graduates from the college. Employers commend the institution for fostering a continuous learning attitude (70% positive), adaptability to diverse environments (70% positive), and a strong sense of ethics and professionalism (100% positive) in graduates. However, there are areas identified for improvement. Specifically, the college can enhance innovation and creative thinking skills, as only 80% of employers rated graduates' preparedness in this area as "good" or "very good." Additionally, while 85% of employers gave positive ratings regarding preparedness for evolving technologies, there's room to improve the proportion of employers rating it as "excellent" (only 5% rated it excellent). Strengthening these aspects of the curriculum would further prepare graduates for success in their careers.

### Q1. Rate how the employee showed a continuous learning attitude from their college experience?

In the opinion of employees, the college experience directs towards a continuous learning attitude. A large majority of respondents rated the college experience as very good (40%), excellent (30%), or good (30%). This suggests that most employees believe the college equips the students with a continuous learning attitude in their respective fields.

**Q2. How well does the employee adapt to diverse work environments and cultures, reflecting their college ambiance?**

In the opinion of employees, the college ambiance has positively influenced the adaptation to diverse environments and cultures. A large majority of respondents rated the college experience as very good (45%), excellent (25%), or good (30%). This suggests that most employees believe the college facilitated the adaptation of students towards diverse environments and cultures

**Q3. Does the employee display a strong sense of ethics and professionalism, possibly influenced by their college experience?**

When employees asked if the college experience has influenced their display of strong sense of ethics and professionalism, all of them expressed it positively with 25% rating excellent, 35% rating very good and 40% rating it good.

**Q4. Has the college's academic program prepared the employee to be innovative and think outside the box in their current role?**

Employees' views present a positive picture when asked about if the college's academic program prepared them to be creative in their current role. 35% of the respondents rated it very good and 45% rated it good whereas only 20% were neutral about the same.

**Q5. Evaluate the impact of the college's ambience on the employee's ethical and professional behaviour.**

A majority of employees evaluate the impact of the college's ambience on the employee's ethical and professional behaviour positively. This includes 35% who rated the impact as excellent, 50% who rated it as very good and 15% who rated it good. These results indicate a generally positive perception.

**Q6. How well does the college prepare students for adapting to evolving industry technologies?**

The perception of employees in the effectiveness of the college in preparing the students for adapting to evolving technologies presents a positive picture. A significant portion of respondents rated it very positively. That is 45% rating very good, 35% rating good and

5% rating excellent. A small percentage of respondents rated it average (15%).

**Q7. Evaluate the employee's strategic thinking abilities, as influenced by their educational background.**

Employees positively evaluated the influence of educational background in their strategic thinking abilities. 10% rated the influence excellent, 45% rated it very good, and 35% of the respondents rated it good. However, 10% of the respondents were neutral about the same.
